

# THALAMANCHI NAVEEN KUMAR

## UI DEVELOPER

Mobile No:- 8639507812

Email:- nthalamanchi@gmail.com

---

## PROFESSIONAL SUMMARY

Working as a ReactJS Developer with 6 months of internship experience, I am resourceful and innovative, constantly striving to upgrade my skills in line with current trends. I push my limits to learn, design, develop, and build websites. I possess considerable knowledge in building web applications and scripts using JavaScript and React JS, as well as proficiency in Bootstrap. I have experience in developing web applications and solutions for public sector clients and possess the ambition to complete projects to high standards, meeting the specific requirements of clients.

## EDUCATION

### GRADUATION | B.Tech - EEE

Geethanjali Institute of Science & Technology.

2015-2018 | Percentage:64.55%

### DIPLOMA | EEE

Govt.Polytechnic , Nellore

2012-2015 | Percentage:74.26%

### SSC - 10TH STANDARD

Sri Vivekananda EM School.

2012 | Percentage:93%

## TECHNICAL SKILLS

HTML 5

CSS 3

JAVASCRIPT

ES6

DOM

AJAX

JSON

REACT JS

REACT REDUX

MIDDLEWARE:REDUX-THUNK

BOOTSTRAP

GIT WITH GITHUB

VS CODE

## MY PROJECTS

### Project : "PERSONAL PORTFOLIO WEBSITE - SHOWCASING MY CREATIVE WORK" :

Technologies Used	HTML 5 , CSS 3 , JavaScript , React Js , Bootstrap .
ReactJS Libraries Used	react-google-maps/api , emailjs-com , react-animation-on-scroll , react-vertical-timeline-component
IDE	Visual Studio Code

### PROJECT SUMMARY :

My portfolio website is a dynamic and interactive showcase of my skills, projects, and experiences as a ReactJS developer. Built entirely using ReactJS, this website demonstrates my proficiency in front-end development, UI/UX design, and responsive web design.

### FEATURES :

- Responsive design ensuring optimal display across various devices.
- Integration of Google Maps API to display project location.
- Contact form allowing visitors to get in touch easily.
- Smooth animations triggered by user scroll for enhanced engagement.
- Visually appealing vertical timeline component for showcasing project history.
- Crafted an engaging navigation bar featuring a captivating linear gradient animation. The bar offers swift navigation to distinct portfolio sections while prominently presenting a "Download CV" button for seamless access to my curriculum vitae.
- Incorporated seamless scroll animations throughout the website.

### Roles and Responsibilities: Sole ReactJS Web Developer

- Spearheaded end-to-end development of responsive web applications using ReactJS.
- Designed intuitive user interfaces, ensuring a seamless and engaging user experience.
- Implemented state-of-the-art React components and managed application state effectively.
- Ensured cross-device compatibility by employing responsive design principles.
- Optimized application performance through efficient coding and rendering strategies.
- Managed deployment processes and post-launch maintenance for web applications.
- Maintained high code quality standards through rigorous self-review and adherence to best practices.
- Employed Git for version control, maintaining a well-structured version history.
- Resolved technical challenges independently, finding innovative solutions to ensure project success.
- Stayed current with industry trends, continuously enhancing skills through self-learning and workshops.

## INTERNSHIP EXPERIENCE

### MTREE TECH SOLUTIONS

#### INTERN (DEC 2022 - JUNE 2023)

- Experience with user interface design using HTML, CSS, and JavaScript.
- Good understanding of Document Object Model (DOM).
- Familiar with responsive web design using bootstrap.
- Experience in using REACTJS to build UI with states,props,Functional based components and React hooks.
- Familiar with building a fast SPA.
- Worked on creating routes for components using react-router-dom.
- Performing crud operations using Axios.
- Consuming API and rendering those contains using react components.
- Experience in REDUX to manage the application state.
- Good in Node Package Manager (NPM) for managing dependencies .

## INTERNSHIP PROJECT DETAILS

### Project : “School Admission Application”:

Frameworks-Front End	HTML 5, CSS 3, JavaScript, React Js,Bootstrap
Tools used	Visual Studio Code , Postman

### PROJECT SUMMARY:

This School Admission Application, developed to maintain student details, is useful for busy teams that need to gather, sort, and track college admissions. The system modules in this application includes Seat Booking Module, Student Details Module, Contact Module, Admission Form Module, Document Upload Module, Application Status Module, Admin Dashboard Module, Notifications Module and Payment Module.

### ROLES AND RESPONSIBILITIES:

- Engaged in gathering and understanding the project requirements through thorough analysis.

- Learned ReactJS fundamentals, including components, state management, and props.
- Worked on state, props, and events to create interactive React JS components.
- Implemented various components for the application based on design mock-ups.
- Participated in bug fixing and issue resolution.
- Continued learning and skill development in web development, JavaScript, and ReactJS.
- Actively collaborated with the development team, designers, and lead.
